

Research and development

Innovative... International... Dynamic... Iveco Motorenforschung AG in Arbon has more than 200 highly qualified employees working with commitment and acknowledged success. Arbon, on the shores of Lake Constance is an attractive location, guaranteeing an ideal working environment and a high living standard.

Our activities: all aspects of engine research and development, particularly diesel engines with direct injection and after-treatment systems for road vehicles and off-road applications. Investing in the future and providing new jobs, we are looking for an

Application-Engineer for application of diesel particulate filter and SCR systems

Your Tasks

- Calibration and application of model-based control algorithms for diesel engine exhaust after-treatment systems (diesel particulate filters and SCR systems)
- Preparation of documentation and guidelines for the coordination and application of the complete engine and aftertreatment system in the vehicle.
- Support and maintenance of the engine and vehicle application with regard to issues relating to the exhaust gas aftertreatment, also on-site at our development sites worldwide.

Your Profile

- Graduate engineer in the field of mechanical or electrical engineering with good knowledge in the field of controls of aftertreatment systems
- Experience with application and controls of aftertreatment systems
- Good knowledge in programming, particularly Matlab/Simulink
- Fluent in spoken and written English or knowledge of the Italian language, making for excellent communication with our headquarters in Turin and other FPT Offices.

Our offer...

A multi-purpose and responsible field of activities in an interesting and ambitious research environment. Modern equipment, excellent conditions of employment and working flexitime are further benefits we would like to discuss with you.

Interested? For further information please contact our teamleader Mr. T. Auckenthaler – Tel. 071 44 77 326. Your application should be sent to Mr. S. Söldi, Human Resources e-mail: silvio.soeldi@fptindustrial.com
